SUMMARY

Full-stack web developer with a love for clean code. Pair-programming and remote work aficionado. Fluent in multiple languages, frameworks, and technologies, and capable of ramping up quickly and efficiently.

EXPERIENCE

MICROVERSE, *Remote*

Mentor (Volunteer) | March 2022 – Present

- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

OnTime Tech ICT Solution, Addis Ababa, Ethiopia

March 2021– February 2022

Senior Project Administrator, Contractual.

EDUCATION

MICROVERSE | Month, Year – Month, Year

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

HiLCoE School of Computer Science and Technology

Master in Software Engineering, October 2017 – January 2021

- I spent three and a half years learning basic programming, SDL including requirements analysis and testing, I also mastered various data structures and algorithms using Java and JavaFX and developed several real-world projects.
